ECODOM

Bold and spectacular designs

"**ECODOM**" is a huge selection of ceramic tiles and porcelain stoneware from India. This is a joint venture between an Indian Tile Manufacturing Company and a Russian Company. Ecodom has its own manufacturing units with more than 2000 tile collections.

We constantly evolve with unique designs, QC, process management & service to satisfy each customer. This spirit helped us to reach out our products to our neighboring countries. As a result of its elegant tile collection and quality products, Ecodom has expanded its network to Russia, Uzbekistan, Kazakhstan, Turkey, Belarus, and Armenia in recent years.
